

VENTURE CAPITAL INTERN (FULL-TIME) – MÜNSTER / BERLIN

e eCAPITAL is a venture capital firm that provides early to growth stage funding to European technology companies in fields such as enterprise software & IT, cybersecurity, industry 4.0, new materials, and cleantech. Founded in 1999 and with assets of over EUR 280 million under management, eCAPITAL has a history of supporting entrepreneurs building companies with lasting significance including several successful German exits such as sonnen and Novaled.

To support our investment team, we are currently seeking highly motivated and talented individuals to join our team as **Venture Capital Intern (m/f/d)** for a minimum of 3 months (ideally 4+ months). The internship will be based in our office in Münster or Berlin but working (partially) remote is also possible.

We offer you the opportunity to gain experience in the vibrant environment of a highly dynamic VC firm. If you are interested in joining a highly motivated, entrepreneurial team and in supporting visionary, but results-driven founders in a spirit of partnership, we would like to get to know you.

How to apply

Please send your application via our dedicated [contact form](#) or via email (see below). Include certificates of your degrees and/or grades, credentials from past employers, if available, and briefly state why you are interested in working for us (in German). Please also indicate your availability (preferred start date and duration).

Your Responsibilities

- Active project collaboration in our investment team
- Identification, evaluation and analysis of potential investments
- Market and competition analyses in the context of investment decisions
- Research on market and industry trends to proactively identify high-potential start-up companies
- Analysis and modeling of business plans
- Preparation of decision documents and presentations for internal and external use

Your Profile

- Currently enrolled (or degree) in a first-class university program in a related field such as finance, economics, or engineering with very good academic performance and at least four completed semesters of study
- First practical work experience e.g. through internships in consulting, investment banking, corporate finance, venture capital, private equity or operationally in a start-up company
- Excellent analytical and conceptual skills and the ability to solve complex problems
- A good understanding of business and revenue models and the ability to evaluate financial data
- Self-starter with a proactive, results-driven approach
- Team-oriented attitude with a high level of commitment and motivation
- Very good knowledge of the common MS Office tools (Excel, PowerPoint, Word)
- High proficiency in written and spoken German and English
