### Business Studies - Major/ Minor

Combination of subjects

- a) Major
- b) Minor

Please note that you cannot combine any Major with any Minor. All possible combinations can be found at:

<https://www.wiwi.uni-muenster.de/fakultaet/en/study/master/business-administration/study>.

**Important:** In case of a successful application you will be accepted for the Major you applied for. You cannot change your Major once you have been accepted. You can only apply for one Major! However, your choice of a Minor is non-binding at the time of application and will be finalized at the beginning of the winter semester.

### Do you belong to the best 10 percent of your graduation year?

You can provide sufficient evidence by indicating your final grade in ECTS. The Admissions Committee will accept a certified ranking list showing that you were among the best ten percent of the final-year students in your age group. If you have not yet completed your course, the committee will accept a provisional certificate to the effect that you are among the best ten percent of the students in your age group. It is important that this certificate should be issued by an Examinations Office or signed by the Dean of the Faculty. Letters of recommendation are not accepted as proof.

## Please state the achieved credit points at the end of your studies

Please include the credits earned for your Bachelor Thesis in the respective area (e.g. your Major) in your statement of credits earned.

First you have to enter all credits earned during your Bachelor degree which can be assigned to your Major. In the following, you have to enter the number of credits earned in the areas of business economics (including the credits assigned to your Major), economics and mathematics and statistics.

Courses which cannot be assigned to these areas are not considered relevant. They are not relevant for your application and are therefore not to be included (e.g. business law, business informatics, soft skills/key qualifications, languages).

Courses which you will still complete in the current semester are to be entered in the respective text-field including the ECTS. (Example 1: „Marketing II (6 ECTS)“ / Example 2: „Finance Seminar (12 ECTS)“). Should no credit points be given, the course will not be counted and it will be held to your disadvantage.

Note: The entered and summated courses show the exceedance or non-exceedance of the credit points thresholds in the respective areas (Major (12 ECTS), business economics (40 ECTS), economics, mathematics and statistics (all together 30 ECTS)) given in the access and admissions regulations:

<https://www.wiwi.uni-muenster.de/fakultaet/en/study/master/business-administration/applicationadmission>.

## Final grade

Here, you have to enter your final grade or preliminary average grade. The grade has to be officially certified.

Please note: According to the admission requirements **a minimum GPA/final grade of 2.9** (according to the German grading system) is mandatory. You cannot apply with a grade worse than that or rather will receive a letter of rejection. Foreign gradings should be converted using the “Modifizierte bayerische Formel” (see document „Translation and conversion of foreign certificates/transcripts“).

## Business Studies - Thesis

If you don't know the title of your thesis yet, please enter „still to be determined“ in the text field “Title”.
