This workshop intends to bring together papers that examine long-run characteristics and interesting events in the development of financial markets and institutions during the late 19th and early 20th centuries. We are also interested in asset price behavior during this period. We especially welcome papers that utilize new data sources and previously under-utilized datasets. Moreover, we have a preference for quantitative investigations and studies which analyze the impact of institutional settings on financial markets, institutions and asset prices.

LOCATION: The workshop will take place at the St. Antony's College, University of Oxford, U.K., on June 5, 2008.

TOPICS: Any papers that fit the topic outlined above will be considered for presentation.

EXPENSES: Expenses for travel (economy class round-trip) and accommodation will be partially covered for speakers and discussants.

SUBMISSION INFORMATION: Only complete research papers (electronic MS Word or pdf versions only) should be sent by 30 November 2007 to: Martin T. Bohl, Email: martin.bohl@wiwi.uni-muenster.de.
